The Dimmer View

by MAX GOODWIN

The Marine Corps reported recently that youngsters had done a pretty good job of wrecking a 15-ton M-38 tank the First Tank Battalion had on display at the County Fair for Kids Day.

The little angels had managed: to break the tank's ignition wires; pull lobse its oil lines, to break a cable, a safety wire and a lock, to get at two CO2 gas bottles. Naturally, they touched off the gas.

This recalls the Pentagon gag concerning a new super-destructive force which had been built into a bomb for the Armed Forces. The new bomb, they said, has the explosive force of five six-year-old children.

There is no accurate way of determining what goes on in the minds of these youngsters . . . whether their bent is of viciousness or simply of inquisitiveness. Once in a while a small picture of the inner conflict is revealed. Occasionally a revelation is made by which our complete faith in kids is reaffirmed. Such a revelation came recently when we got onto our own son Danny for failing to take the trash out to the street's edge . . . a twice-a-week chore he is charged with in exchange for his weekly allowance. We got the distinct feeling we were being ignored as we gave him a lecture on the necessity for assuming responsibilities.

Late that night as we made our nightly round to see that our youngsters were safely tucked in we found a letter-sized note he had written to himself in red crayon. It read: "Why can't you remember the trash." It was signed "Stupid."

We are in the midst of our second reading of FBI Director J. Edgar Hoover's book, Masters of Deceit," a primer-like study of communists' organizations in the United States.

The books was published only last year but is already in its fourth printing, so popular has it become.

Hoover does not stray from between the narrow confines of layman's interest in the movement, a presentation which is extremely difficult because Communism is fluid. The entire philosophy changes with Communis-

Spring Valley Freeway Routes Revealed by State Engineer

L.G. School Tax Rate To Drop Two Cents

Elementary school tax reduction of two cents was promised this year by Byron Netzley, superintendent of the Lemon Grove Elementary School District Monday night as the trustees gave final approval to a 1959-60 budget of $1,566,412. Budget hearing was set for August 3 at 8 p.m. at the Education Center.

Wider tax base and higher assessed valuation, he said, permitted the rate decrease.

The school board opened bids for the new Mt. Vernon school to be ready for occupancy next year.

Raymond A. Whitwer of San Deigo was successful bidder. His bid was for $226,522. Eleven other bids ranged from $227,999 to $248,544.

Frank Armstrong, former school trustee, heading a group of five persons, argued that the school board should protest to the state Alcoholic Beverage Control department the request of Food Basket Market for a beer and wine off-sale license. He said the law provides for protests when schools are within 600 feet of the proposed site of sale. Byron Netzley, school superintendent, said that other off sale establishments within the area had never proved a problem for Lemon Grove schools. The board finally agreed to protest on Armstrong's plea that the board had protested the same request a year ago. A that time Armstrong was on the school board and he led the group of protestants.

The board also authorized an application for a state loan to improve the playground at the Vista La Mesa school to the extent of $32,000. Clyde Hufbauer, district architect, said most of the money would be needed for drainage.

ONE MORE TIME — County Road Department workers install a sign at the intersection of Broadway and Grove Street in Lemon Grove, again. Sign notes intersecting streets and points direction to freeway. Originally, it was simply a pole set into the street. A car knocked it down: It was reset, with a concrete base poured around it. A car knocked it down. New sign is set in concrete foundation, with a protecting barrier of railroad iron, also set in concrete.

Casa de Oro Chamber Board Endorses Choice

Two alternate routes for the easterly development of State Sign Route 94 (Campo Road) were unveiled Wednesday night at the second annual membership dinner of the Casa de Oro Chamber of Commerce at Henry Langhorst's cafe at the La Mesa Airport.

Jacob Dekema, district engineer of the State Division of Highways who was principle speaker, said taxpayers' money is spent on freeway systems primarily to get the taxpayer to his destination quicker and safer. He produced maps of the two alternates to illustrate the project.

Alternate "B", he said is 0.6 of a mile shorter and a million dollars less expensive than Alternate "C". Either route would leave Campo Road virtually intact to serve traffic during construction, Dekema said.

Alternate "B" proposes 5.5 miles of six-lane freeway from Palm Avenue in La Mesa to Rodgers Road and then to four lanes of full freeway from Rodgers Road to 0.1 mile south of Jamacha Road. A two-lane road would then continue to the end of the project, 0.8 miles south of Jamacha Junction.

This route lies southerly of the present route from Panorama Drive through the Spring Valley Casa De Oro area to South Barcelona Street.

Alternate "C", 6.1 miles in length, connects with the existing State Sign Route 94 freeway east of Grove Street in Lemon Grove and skirts the westerly edge of the Brookside subdivision. It then heads northeasterly towards a common point with Alternate "B" at South Barcelona Street, where both alternates become identical to the end of the project.

Both alternates are designed for 60-mile-per-hour speeds, with maximum grades of 3 percent.

Alternate "B" is estimated to cost a little more than $10,000,000, while Alternate "C" would require an additional million dollars to construct.

Gilbert Ray, president of the Casa de Oro Chamber of Commerce, said he had recommended to his directors the choice of the shorter, less expensive alternate, and that they had endorsed this route.

Dekema said a public meeting has been set for August 19 at the Spring Valley Junior High School at 7:30. The August meeting will climax an extended period of study during which the local highway office has developed all the details on the two alternates.

All interested citizens are urged to attend the public meeting, Dekema said.

Taxpayers Assn. Hears Attack On 'Deficit Trend'

"For the last quarter of a century, those whom we have sent to Washington to represent us have aided and abetted thievery," retired Admiral John Foster of Coronado told the Lemon Grove Taxpayers Association Monday night.

He qualified his statement slightly by saying that "those people in there" are setting government policies on at "defi-trend because they think that we want them to do it."

He added that this will contniue "until we start using the vote to get them out and put some honest people in there."

In a speech to almost three dozen people (Taxpayers President Milton Lear called the turnout "disheartening.") Adm. Foster attacked the late President Roosevelt for "getting into office on promises of a new deal, and then making that new deal off the bottom of the deck."

He said that Representative Bob Wilson (R-San Diego) is "in there for everything he can get for San Diego but everybody else in Washington is trying to get everything he can for his district. So when Bob Wilson wants something for Mission Beach he makes a deal to vote for somebody else's project so that man will vote for his."

The results, Adm. Foster said, is that "we have had deficit

Gunman Robs Casa de Oro Liquor Store

A man armed with a .22 caliber target pistol robbed the Casa de Oro Liquor Store of $78 Monday night, Robert L. Maddox, owner of the store, reported to the sheriff's office.

Maddox said that a young man, about 21 years old, walked in shortly after 10 p.m. and said:

"This is it. Put it in a bag. Do as I say and nobody gets hurt."

Maddox said that he put his money (about $78) in a bag and that the robber took the bag and left by the back door.

While the robbery was going on, Maddox said, another man, about 43 years old, stayed outside and held potential customers in their cars.

The liquor store is at 9851 Campo Road.

Water Bonds Sale Won't Disturb Market, Says Betts

Bert Betts, California State Treasurer who lives in Lemon Grove, told Lemon Grove Chamber of Commerce members of plans to float California's projected $1,750,000 water bond issue that will come from a bond ballot next year. He was principal speaker Friday night at the chamber's semi-annual report dinner at Michael's.

Betts said the issue could be sold without undue disturbance to the bond market. He proposes to integrate sales of water bonds with bonds already programmed to be sold, he said.

"As a first step we are considering financing the Veterans' farm and home Loan program from State Retirement funds.

"The bond market appears to operate so that buyers will not take more than certain amounts of any one state's issues. If the state offers more than that amount, the bond buyers will take them only at higher interest rates.

"In an effort to ease the bond market by possibly reducing the volume of General Obligation Bonds sold by the State of California, the Governor appointed me as chairman of a committee to study the feasibility of internal financing within the State Agencies", Betts said. "Our first study is now in progress. We are exploring the possibility of financing all or a portion of the Veterans' Farm and Home Loan Program from Retirement Funds. There are many problems involved, but we feel that these can be overcome. We must be equitable to both the Retirement Funds and the Veterans; however, we are certain that by not glutting the market with the Veterans' Issues, a considerable savings could be obtained on the other issues," he said.

California is the largest state borrower and as such must operate carefully in order to avert overhigh interest rates, he said.

Betts said the present administration had helped put the 1958-

This Is The Review's Annual Circus Edition

This is the annual LEMON GROVE REVIEW Circus Edtiion. Part of this edition has been set aside for information pertaining to the gala event.

The circus is sponsored by the Lemon Grove Chamber of Commerce and is free. Carnival rides in connection with the circus are not. Local business firms have purchased huge quantities of ride tickets which are being given to customers. These tickets permit users to enjoy these rides for ten cents. Most rides, otherwise, would be 25 cents. The cost of the tickets to the business firms makes up the difference.

Read the Circus Section of this issue of the REVIEW for addresses of firms distributing Carnival Ride Tickets. These firms are also offering stores filled with wanted merchandise at lower-than-usual prices to help make the four-day event a memorable one.

During the week the circus is in town the Chamber of Commerce is honoring National Baton Twirling Week. Baton twirlers will make appearances at the circus, according to Jesse Lee, chamber manager. Patty Corle, Dena and Darleen Anderson, and Sandy Ursino will twirl at 3 p.m. Sunday.

Coordinators to Hear Recreation Expert

R. C. Whitmore, general superintendent of the Coachella Valley Recreation, Park and Parkway District, will be in Lemon Grove Monday to help prepare a master plan for a proposed recreation district in this area.

He will speak at a meeting of the Lemon Grove Coordinating council, according to the Rev. E. Walter Smith, president of the group.

Whitmore is in charge of a district which covers the recreational activities of the City of Indio, the City of Coachella and unincorporated communities in the same area. His presentation Monday to the Coordinating Council is expected to include the showing of a movie made in his district. The movie, Whitmore said, has been shown in several states and in several recreation districts.

Prior to appearing at the meeting in Lemon Grove, Whitmore will tour the Lemon Grove-Spring Valley area to see what recreational possibilities there are, the Rev. Smith said. Whitmore also is expected to talk to recreational directors in La Mesa and in the County Recreation Department.

The Coordinating Council has appointed a special committee to investigate the possibility of establishing a district which would provide various recreational facilities for the area.

A report submitted by the committee last month recommended that:

1) **An inventory** be made of the existing facilities and resources of the comunity and a report be made with a recommendation of the community's needs and its ability to provide.

2) Put these in a master plan which will be functional, striving expressly to use the facilities of local schools.

3) **Acquire advice** and guidance of professional people who have had experience in putting community recreation programs together.

4) Obtain legal counsel to form a recreation district and implement the master plan.

Whitmore's appearance here, President Smith said, will be aimed at the third of these recommendations. Members of the Council's recreation committee are expected to add to Whitmore's observations.

The meeting is scheduled for 7:30 p.m. Monday in the Lemon Grove Junior High School cafetorium.

TRAVEL OKAYED

SAN DIEGO (CNS)—The 1959-60 travel program for county officials, calling for an expenditure of $74,000, was approved Tuesday by the County Board of Supervisors. Supervisor De Graff Austin had held up action on the program a week earlier, stating he wanted more information on the salaries paid county officials while they were traveling.

Imperial Avenue Construction Job Now Under Way

Work began Monday on realigning and rebuilding Imperial Avenue in Lemon Grove from Cypress Avenue to North Avenue.

The work, being done under a $191,000 contract by the Kenneth H. Golden Co., involves putting in curbs along both sides of the street, putting a dividing island in the center and resurfacing the 4,500-foot length of the street.

Curbs will be extended around the corners of intersecting streets for about 100 feet, engineers from the County Department of Public Works said Monday.

The island in the center will be of varying width, to permit cars to pull out of regular traffic lanes to make left turns.

With the new improvements in, each side of the street will have two traffic lanes, plus provisions for parallel parking next to the curbs.

It is expected that the project will take four and a half months to complete. Golden Co. officials said that Imperial Avenue will be open to traffic during construction and that even during peak periods, traffic would not be appreciably delayed.

Valley's First Trailer Park Being Planned

Spring Valley's first trailer park is scheduled to open September 1, in the 3200 block, Bancroft Drive. Being built by O. Lee Sparks, Lemon Grove realtor, the park will take in six acres.

There will be spaces for 104 trailers, each space being 30 by 60 feet. There will be two areas, one for adults only and the other for families. Each trailer will be able to take advantage of natural gas, underground telephone connections and television. There will be a master TV antenna.

Sparks said plans call for a 20 by 40 heated swimming pool, a recreation room and children's playground.

Reservations are now being taken, Sparks said. The Spring Valley park will be the sixth one he has built. He owns three other trailer parks.

Alternate proposals for Freeway 94 route through Spring Valley, as presented by State Department Wednesday night at meeting of Casa de Oro Chamber of Commerce dinner.

Chamber directors have voted in favor of route "B" which roughly parallels existings Highway 94.

One of a series of steps of remodeling the Lemon Grove Drug Store was completed last week when air conditioning was installed.

New metal, self-closing doors also were installed to keep the refrigerated air in the building.

Baby Production Continues at Newspaper Shop

Production is up at the office of this newspaper. Production of newly born babies, that is.

Two new ones in two weeks has members of the staff asking the question: "Who is next?"

The latest one is the daughter of Mr. and Mrs. Jack O'Rourke, he being a printer-pressman of the firm. The baby, Kathleen Joan, nine pounds and 10 ounces, was born Saturday at the U.S. Naval Hospital at 2:45 p.m. after considerable fretting by the baby's father.

The couple reside at 7631 Normal Ave., La Mesa, and they have another child, a boy, Steven Thomas, age nine.

Kathleen was 21½ inches long at birth.

Last week the wife of the shop foreman, Joseph Berendt had a boy, Glen David.

Like we say, other members of the firm are pleased with the production but concerned as to just how long and to what extent it will continue.

Real Estate Trend Continues Up Here

Lemon Grove, La Mesa and Spring Valley real estate sales totaled 387 for the month of June, according to statistics in Trends, monthly real estate publication of Union Title Insurance Company. The figure shows an increase from the 231 sales recorded for the same month a year ago and also from the 343 recorded in May.

James C. Downs, Jr., editor of Trends, says "real estate sale transfers made in June were 9.4 per cent below those closed in May; the trend in volume manifests inself in the 31.9 per cent increase over June of 1958." Comparative figures for the first half of the year reveal an overall increase of 34.4 per cent for 1959 over 1958, Downs said.

Hospital Asks $339,634 Tax

SAN DIEGO (CNS)—Grossmont Hospital District will require $339,634 in tax revenues to operate for the current fiscal year, the County Board of Supervisors was informed Tuesday.

Thet Board received certified copies of three resolutions from hospital district trustees, showing service charges and comparing them wtih other non-profit hospitals in the area. On this basis, the tax request was made.

Supervisors referred the budget to the county auditor and controller for study and establishing the required tax rate. As assessments have not yet been broken down to show the figures for the Grossmont district, it will be several weeks more before the rate for 1959-60 can be set by Supervisors.

Fire Department Answers Two Calls

There were just two fire calls for the past week in Spring Valley. A 1949 Ford belonging to Mrs. Judy Kenoyer was burned extensively in the interior, as it was parked in front of 3486 Trophy Dr., Brookside, on July 9. According to the fire department report, a cigarette burning in the upholsterly caused the damage.

On July 13, at 8:47 a.m., the fire trucks were called to the home of J. A. Trottier, 3575 Ybarra Rd. A spark from a barbecue ignited a plastic child's play pool in the garage and the flames did small damage to the garage, mostly blistering.

School District Revises Plans For New Site

SAN DIEGO (CNS)—The La Mesa-Spring Valley School District has revised its plans for a school site opposed in April by the County Planning Commission, the commission was informed at its Friday session.

The commission opposed purchase of a site in the San Diego Avenue-St. George Street area of La Presa on the grounds that it was in the middle of a proposed subdivision and would cost more than other land in the immediate vicinity.

Approval of the revised plan for the site was given by the commission, and its previous disapproval was rescinded. The commission also gave its sanction to a site in the same district for a junior high sechool, to be located south of Jamacha Road, between Leland Street and San Diego Avenue, La Presa.

Approval in both cases was conditioned upon rights of way being provided to the county without charge to improve traffic conditions.

Girl Born In Hawaii Wins Trip Back

Ruth H. Schultz, 8839 Troy Street, Spring Valley, was named winner of the Southland Savings and Loan Association "Open House" award Tuesday. Her prize is an eight-day trip for two to Hawaii.

Her name was chosen from a huge barrel containing approximately 5,000 others by Superior Court Judge (Ret.) L. N. Turrentine. Miss Schultz, a 20-year old clerk-typist who works at North Island, said she was undecided whether to take the trip herself or send her mother and father, Mr. and Mrs. Daniel J. Schultz. The Schultzes formerly lived in Hawaii in the Kalihi Valley on the Island of Oahu and Ruth was born there. "I went back in 1954 for a visit," she said. "So I would like my mother and father to make the trip this time."

The tour awarded to Miss Schultz includes the air trip both ways, accomodations at the Waikiki Beach Hotel, meals and side trips. Southland Savings President John A. Davis, who took part in the selection of the lucky contestants, said there are "no strings attached to the giving of the award. It is not necessary for the winners to have an account with us, or to have given up any time or effort to be eligible. As you can see," he said, "it is not even necessary to be present to win." Miss Schultz was at work when her name was drawn by Judge Turrentine.

Also taking part in choosing the winner was Bob Wilson, manager of the Lemon Grove branch of Southland Savings.

CLAIM FOR $10,028 REJECTED BY BOARD

SAN DIEGO (CNS) — A claim for $10,028 for injuries allegedly suffered by a child on one of the Navy jet planes scattered throughout the county park system was rejected Tuesday by the County Board of Supervisors on the advice of the county counsel's office.

Championship Bowling Fete Scheduled

The first annual San Diego National Bowling Championship tournament with a guaranteed prize fund of $30,000 will be scheduled from Oct. 31 to Dec. 20 at the Mission Valley Bowlero, John McKennon, president of the sponsoring Luxury Hotels of San Diego, said this week.

The tournament will be held on weekends.

"We of the Luxury Hotels of San Diego are happy to team up with the great sport of bowling in sponsoring this $30,000-added national championship event," McKennon declared. "It may seem odd that hotels would sponsor bowling but our organization feels that there is a place for a great national handicap tournament — similar to the Tam O'Shanter of golf—and we want that place to be in the San Diego area, the growing recreation and vacation center of Southern California."

Plans for the championships were completed after two months of negotiation between Luxury Hotel officials and members of the San Diego Bowling Proprietors' Association headed by Lou Sothras, president, and C. V. "Tommy" Thompson, general manager of Bowlero.

The championships will be open to all bowlers with recognized averages and will have scratch and handicap awards for both men and women. There will be 13 prizes of $1,000 each with 10 being awarded in the handicap division and three for outstanding scratch series.

The prize distribution calls for at least one winner to every 10 entrants. In addition to the $30,000 that has been guaranteed, Luxury Hotel members have come up with a bonus arrangement that is expected to add a minimum of $15,000 to the prize pool. Any winning contestant who is a guest at a Luxury Hotel affiliate will receive a bonus prize of up to $250.

Gas Tax Money For Sweepers Eyed by Board

SAN DIEGO (CNS) — Street sweeping in county areas is not all that it should be, but it will get better if the county can spend gasoline tax money for this operation, the County Board of Supervisors decided Tuesday.

The Board asked the county counsel's office to investigate the legal question of using gasoline tax funds.

The request was made when Road Commissioner David K. Speer recommended against fulfilling the application of the Ramona Chamber of Commerce for street sweeping in that community.

Speer said the county has only two street sweepers, one stationed in the Lemon Grove area and the other in the Encinitas area. He said Ramona was far from the two and that it would cost more to transport a sweeper to Ramona than it would to sweep its streets.

The county's sweepers now only operate in areas where the streets have curbs, Speer said, and he urged that no action be taken in Ramona until the community has more streets with curbs.

"We have had requests for a higher level of service," Speer said, "but there is nothing we can do the way things are."

Supervisor David W. Bird made the motion to see if gasoline tax revenues could be used for street sweeping. He said he understood taxes were used for the same purpose in other parts of the state.

Water Bonds Sale Won't Disturb Market, Says Betts

59 budget in balance by its operations during the last six months. The 1959-60 budget also will be in balance, he said.

Betts said that the department is practicing economies that will save tax money. He cited an example of cremating bond coupons at the end of one year. Previously, they had been warehoused for ten years. Other economies are in effect or in the planning stage, he said.

The meeting, which attracted more than 100 guests, was presided over by Chamber President Bill Parker. He said the chamber, under the management of Capt. Jesse E. Lee, was growing in strength financially and membership totals. A report was given on the chamber-sponsored circus being held in Lemon Grove this week.

The chamber awarded a clock trophy to Max Goodwin, editor and publisher of the LEMON GROVE REVIEW for "service to the community."

The surprise presentation was made by Jim Spears, vice president of the chamber. The inscription read "From the citizens of Lemon Grove for services rendered far beyond his line of duty."

The Dimmer VIEW

tic needs, but Hoover managed to give good definition to the cult.

In a speech in Charleston W. Va. recently, Hoover added these eye-opening facts to the long list of what the Communists are up to in the USA today.

The Communist menace is not fading nor their numbers diminishing. That 70 to 80 percent of all Soviet diplomats are in America as Communist spies and that their number has increased 50 per cent in the past five years.

"Using blackmail, bribery and similar techniques, Communist agents, many with diplomatic immunity, are stepping up their efforts to obtain our military, scientific and industrial secrets to use against us." This increased espionage activity reveals the hollowness of their appeals for "peaceful coexistence," Mr. Hoover points out.

The "hard-core" Reds now controlling Communist Party USA, he declared, are unaffected by the murderous policies that have brought and kept Red China, Hungary and Tibet under submission, and are driving now to infiltrate labor unions and essential industries. They are intensifying their "smear" campaigns against Congressional investigating committees, patriotic organizations and the FBI, he added.

The fight against the FBI has been particularly bitter, we think, and this tells us that Communist leaders see the FBI as the main obstacle to general infiltration of work-a-day Americans.

We recommend that every American obtain a copy of Mr. Hoover's book and read it carefully. The knowledge therein will prove to the reader, beyond reasonable doubt, that Communists must discredit the FBI to have a chance to gain control of the United States and the fierceness of the battle proves how important Communists think it is to achieve this objective.

SHE ALMOST WON — Mrs. Dottie Sanders, 1526 Koe St., Lemon Grove (above) came near winning the Powder Puff Derby last week. She and her co-pilot, Mrs. Marian Jepsen, 1414 Torrence St., came in seventh. More than 100 woman pilots participated in the race, flown from Lawrence, Mass., to Spokane, Wash. Mrs. Jere Cassel of San Diego and Mrs. Aileen Saunders of El Cajon won the race. Mrs. Anna May Christensen of Lemon Grove also flew as a co-pilot. Her plane was in 35th place at the finish. The Sanders-Jepsen team was sponsored by the Lemon Grove Chamber of Commerce.

Taxpayers Assn. Hears Attack On 'Deficit Trend'

spending for the last 25 years."

In his talk, Adm. Foster attacked the government for:

INFLATION — "The government is issuing counterfeit money. Everytime they print more money, it make the original money lost its value. That's counterfeit money."

He said that wage and price rises are not responsible for inflation. "Inflation," he said, "is caused by prices going up so high that articles are priced out of the market, unemployment results, the government issues more money to aid the unemployed and we have inflation."

POWER PROJECTS — "We should capitalize and amortize projects like the TVA and the Colorado River Project and make them pay their own way."

POST OFFICE DEPARTMENT —"We might have to pay more for stamps but there isn't any reason that that outfit shouldn't pay its own way."

SUBSIDIES — "The federal government is paying half the cost of airfields for the airlines. The cities pay the other half. The government pays for airway beacons and for weather service. Airlines have hurt the railroads, which are paying their own way.

"Farmers don't like subsidies. They take them but they don't approve of them."

FOREIGN AID—"How about those foreign giveaways? All that money hasn't bought us any friends. We had more friends before we started this giveaway."

Stating that "all religions have a commandment that "Thou shalt not steal," Adm. Foster concluded by saying that the "thievery, the taking of money from Peter to pay Paul must stop. We have to start taking the money from Paul, to help Paul.

"When a man uses a gun to rob another man we think it is a terrible act. Isn't it just as immoral to take money from people with a vote as it is to take it with a gun?

He received a standing ovation at the conclusion of his speech.

To Push For Lie Detector Evidence In Courts, Men's Club Speaker Avers

Morris Sankary, a San Diego attorney, told the Men's Club Friday that he eventually will ask the Supreme Court to rule lie detector tests as admissible court evidence. He said such evidence is not acceptable in any court now.

Sankary kept the club enthralled with a description of how the detector works and with a run-down on some of the cases he won as a result of detector tests. He said that he has no case presently involving the lie detector that he would use as a Supreme Court ruling springboard.

In almost Perry Mason-like fashion he told of convictions and exonerations resulting from the "polygraph" which is the more formal name of the device. He used it often as attorney for the U. S. Attorney's office and in private law practice.

He said his job as counsel for the Atomic Energy Commission under Gordon Dean prior to Dean's death, was "uneventful." Sankary was a law student under Dean prior to their A.E.C. assignments.

The program this week will be provided by a speaker from the San Diego Transit System. William G. Duflock, general manager of the El Centro Chamber of Commerce, is scheduled to be speaker on July 31.

All men are invited to attend the Men's Club open-forum type meetings which are held every Friday at noon at Michael's.

Vandals Set Fire To Service Station Gasoline Hose

Vandals laid a Lemon Grove service station gasoline hose on the ground and set fire to the end of it early Tuesday morning.

Firemen reported that they put out the blaze before it did any damage.

The station was Young's Service Station at 2685 Imperial Ave.

During the past week, Lemon Grove firemen were called to a grass fire in the Hillcrest area, but it turned out to be controlled burning. They answered another mistaken call with a resuscitator at Olive and Broadway on Friday, when a caller said that a woman had fainted from the heat.

It turned out that she had merely slipped and had fallen on the curb.

Monday night, the department was called out to wash down an area at 7280 Central Ave. where an automobile accident had spilled gasoline in the street.

Poles to be Set For Mt. Miguel Night Lighting

Ground breaking ceremonies at the Mt. Miguel High School athletic field Saturday afternoon will mark a milestone in a campaign to get lights for the field, a Mt. Miguel Boosters Club official said this week.

Mrs. Philip Titmas, president of the club, said that $2,000 has been raised—enough to get the poles installed. The lights themselves, which are expected to cost another $6,000 will be bought and installed as the fund drive progresses, Mrs. Titmas said.

George Scott of the Walker-Scott company, has donated a $500 gift certificate as an incentive to the fund raisers, Mrs. Titmas said, and has promised his personal check for $2,000 if parents raise a balance of $4,000 more.

Ground breaking ceremonies are set for 2 p.m. Saturday.

Half-Acre Zoning Seen for Area In Casa de Oro

SAN DIEGO (CNS)—Action on a requst for zoning to make half-acre building sites in 12 and a half acres in the Casa de Oro area was held up at Friday's session of the County Planning Commission to permit a study of a zone change for a wider area.

Melvin L. Chaney and others asked for the zone change for land now in acre-sites on each side of Conrad Drive and Resmar Road, south of Grandview Drive.

The planning department staff recommended to the commission that the same kind of zoning be considered for all the land to the north, extending as far as the boundaries of El Cajon.

"We'd be sticking our necks out going up on the other side of Fuerte drive," said Commissioner Gilbert T. Ray. He then made a motion that the commission hold a hearing on half-acre zoning for the land south of Fuerte.

Country Club Area Subdivision Plan Delayed by Board

SAN DIEGO (CNS)—Action on preliminary plans for the development of 37 lots in the La Mesa Country Club area was delayed Friday by the County Planning Commission.

The action was taken at the request of Commissioner Gilbert T. Ray, who is also the subdivider of the lots, in Diana Estates.

Ray disqualified himself from participating in deliberations as a commissioner, but asked the delay as a subdivider and said he was in disagreement with some of the requirements being asked by the county.

Lions Delegate Back in Valley From Convention

Jesse Hodge, past treasurer of the Spring Valley Lions Club, returned to Spring Valley July 5, after spending several days at the Lions International convention in New York. He stayed at the famous Commodore Hotel. He reports that approximately 40,000 members of the clubs were delegates to the convention. These delegates, along with their wives, made a total of about 65,000. Nearly 70 countries were represented at the convention, there being 96 countries having Lions clubs.

Main order of business at the convention was the election of officers for 1960. California and Nevada helped get their choice elected to third vice president, a man from the state of Maine.

A delegate is selected by the board of directors of the local club. His expenses are paid by the members of his club, the money coming from a "Kitty" set up by members for this purpose.

All other money taken in by the clubs for their annual fund-raising projects is used to help the needy blind and for sight conservation in the area in which the club is located.

The Spring Valley Lions Club project for 1959 is being handled through donations to a 1959 vacation trailer, to be given to some lucky person.

The SV Lions also have a fund set up for youth aids and activities, such as scholarships, youth baseball and eye surgery.

WHAT'S DOING
Dick Rose, your Telephone Manager in La Mesa

Accidents can happen— and sometimes it's the telephone that bites the dust. Well, telephones are built to take it. But I wonder if you've thought about this fact: when something does go wrong with your phone — because of accidents or normal wear and tear — your telephone man will be out to fix it, *free of charge.* It's a lifetime guarantee, too, in effect as long as you have a phone. And, when you come right down to it, it makes your telephone pretty unusual. Can you think of anything else that doesn't cost you a single cent for repairs?

VACATION TIME !

—is finally here. There will be sights to see, fish to to catch,mountains to climb, ski's to ride, oceans to swim—but first of all reservations to be made. Don't let the lack of reservations cancel your plans. It takes only a minute and a few cents to call ahead and guarantee your fun. That done, now—

HAVE A HAPPY RESTFUL TRIP !

you get a **BETTER BUY** when you insist on the **REAL THING**
GENUINE LATH AND PLASTER

TOP QUALITY usually costs more than a cheap substitute. But NOT ALWAYS. Experienced builders, for instance, confirm that a home or commercial structure in which genuine lath and plaster is used costs little if any more than the total cost of the same structure with walls and ceilings of substitute materials.

And consider how much MORE you get for your money:

LONGER LIFE — genuine plaster outlasts the mortgage many times over;

FIRE PROTECTION — genuine plaster is rock-hard, cannot burn, protects life and property;

GREATER RESALE VALUE — plastered structures sell faster and for more, because buyers know that plaster is a sign of quality construction throughout;

SOUND INSULATION — genuine plaster — especially modern acoustical plaster — soaks up and deadens sound, keeps your sound in, your neighbors' sound out;

CLEAN, SANITARY, SEAMLESS SURFACE — so important in modern decoration and trouble-free maintenance.

When you buy or build, get your money's worth. Insist on ***THE REAL THING . . .***

Boy Swallows Ant Poison; Survives Ordeal

Eighteen - months - old David King, son of Mr. and Mrs. Edward King, 985 Gillespie St., Spring Valley, is back home after being taken to Hillside Hospital after swallowing ant poison.

The child's mother said she had just purchased some groceries and had put them in the front seat of her car where David was sitting. She then went by her home and picked up four boys to take them to a pool for a swimming lesson. The groceries were still in the car, among them the ant poison.

As she neared the pool she noticed that the child had somehow opened the ant poison container and had swallowed some of the contents. Just at that time her car vapor-locked. She screamed and someone in the house called the Spring Valley Fire Dept. ambulance.

The child was taken to Hillside Hospital because, as Mrs. King said, their family physician was there, and soon had David's stomach pumped out. He was returned home and later seemed okay. Mrs. King said the child probably had swallowed about two tablespoonsfull of the poison.

CHRYSANTHEMUMS

I think it best to stop cultivating Chrysanthemums about the 15th of July and at that time give them a 3 or 4 inch mulch of cow manure. This seems to carry them along to the time when the buds start to set. Then, give them one feeding with a good well-balanced commercial fertilizer that is heavy in potash.

Keep the plants well staked and tied and, when they show color, spread cheesecloth over them to protect them from fog and from hot sun. I believe in watering overhead because it seems to keep the foliage clean and allow the plants to breathe oxygen.

The most satisfactory way I have found to keep Chrysanthemums free from pests and diseases is to spray them occasionally with a very light oil emulsion containing copper and nicotine.

—o—

At this time of year watch for injuries to your plants underground.

Wireworms are especially destructive to delphiniums, snapdragons and similar plants. Ground mealy, the whitish substance so frequently found through your soil, is a destructive factor. Little root aphii accumulate around the roots of pyracantha and other shrubs. And probably the worst evil of all is root rot on plants such as iris.

A very simple remedy that involves almost no trouble is to use the copper-ether material that is manufactured for underground disinfection. This product can be used without injury to plants growing in the area. Water thoroughly three or four hours before you give the treatment. Then dilute the material according to directions on the bottle and spray or sprinkle it over the surface of the soil. The ether will penetrate 10 to 12 inches underground and eliminate all these evils and your plants will take on new life and vitality.

—o—

Black Spot on roses is becoming such a serious menace that I think it merits repeated warning. It is a disease that you must not permit to get ahead of you, if you hope to have a good rose garden.

Whereas preventive treatment, which is most important, must be done in your rose garden in the early spring, nevertheless, if you have black spot now, you must keep it under control by spraying with the right materials throughout the summer months. I favor copper sprays in inland areas where there is no seaside fog to contend with. Along the coast, a sulphur spray gets very good results.

San Diego State College Enrollment of 17,000 Seen

San Diego State College, now with an enrollment of slightly less than 6,000 students, is expected to have 17,000 students in 1970, according to Dr. J. Burton Vasche of the State Department of Education.

Dr. Vasche said that even with its gigantic increase in enrollment, San Diego State College would not be the largest in the state. At least two colleges, he said, are being planned for 35,000 students each.

Although 20 years in the future, such giant campuses are in direct contrast to today's colleges, the biggest of which is San Jose with 8,962 students this year.

Only two campuses are planned to handle 35,000 students by 1980 and they are in southern California, reported Dr. Vasche, the department's state college chief. They are San Fernando Valley State College (with 902 students this year) and Orange County (which starts in September).

By 1970 alone, Vasche added, state college enrollment is expected to hit 180,000 compared to this year's 45,572. Because of this growth, State Education and Finance Dept. officials have radically increased proposed enrollments so colleges can be planned on present sites to handle more students.

Sixteen state colleges figured in the predictions. They are Alameda County (no students now), 25,000 students by 1980; Cal Poly at San Luis Obispo (4,085), 20,000 by 1990; Cal Poly near Pomona (780), 20,000 by 1980; Chico (2,602), 6,000 by 1970; Fresno (4,435), 20,000 by 2000; Humbolt (1,296), 5,000 by 1975; Long Beach (4,328), 25,000 by 1970; Los Angeles (3,850), 15,000 by 1964; Orange County (0), 35,000 by 1980; Sacramento (2,810), 20,000 by 2000; San Diego (5,844), 17,000 by 1970; San Fernando Valley (902), 35,000 by 1980; San Francisco (5,678), 10,000 by 1970; San Jose (8,962), 16,600 by 1966; and Stanislaus County (0) and North Bay Area (0), both 15,000 by 2000.

Clowns, Elephants and Thrills Will Greet Young and Old Alike

The Circus Will Be In Town...

"The Circus is coming to town!"

Hearts stir and pulses beat a little bit faster when this announcement is made.

Kiddies think of performing elephants, teams of ponies which prance and whirl and bow at a flick of the trainer's whip. They think of cotton candy and popcorn and candied apples on a stick.

They think of trapeze performers high up above them, and they drift into daydreams where they are the performers up there, swinging fearlessly into space while the crowd gasps far below.

Moms and Dads remember other circuses in other years. They remember, when they were kids, running down to the big vacant lot at the edge of town to watch the swarm of muscled men pounding stakes with big iron hammers. They remember the tall tent poles and the ropes holding them in place.

They remember the huge expanses of canvas billowing up into place, the tugging of horses and elephants to raise the canvas to the top of the poles—and the sudden transformation of the confusion into a tent, with flags flying.

And the Moms and Dads realize that the days of the giant circuses are gone.

Circuses these days have the glamor, the excitement, the thrills but on a slightly lesser scale.

This week the circus will be in Lemon Grove. It will have two rings and will be shown at least three times a day, from Thursday through Sunday.

There will be a performing elephant, a young lady elephant who can do a dozen tricks. There will be clowns who will do all the funny things that clowns do, the funny stunts down near the crowd, the funny stunts on the trampoline. Trained ponies will cavort at the bidding of their master.

There will be thrills as the performers mount the swaying ladders to the trapezes swinging above the crowd There'll be no lack of opportunity to see this circus, because it won't be under a tent.

It will be out in the open, where everybody can look. The two rings for the circus will be set up on the big lot between the First National Bank and Food Basket grocery store, at Imperial and Golden avenues in Lemon Grove.

And it will be free.

Action is scheduled to begin at 10 each morning and continue until 10 each night, except for Sunday, when the circus will start at 2 p.m.—after morning church services are completed and folks can go home for a while, then come to town.

Of course, a circus would be incomplete without the gay midway with its carnival booths and its rides. There will be plenty of these things too, with rides for grownups and near-grownups, and special rides for the tiny kiddies.

Merchants Stage Circus Too; It's A Circus Of Values

There's a Circus of Values being held in the Lemon Grove shopping center this week.

It's being conducted by the merchants.

There are special, low prices on all sorts of merchandise. Look through this special Circus of Values edition and see. During these Circus days through the weekend, local business firms are offering merchandise at specially marked down prices.

Almost any line of merchandise is represented among the list of advertisers in this section. The promotion is under the sponsorship of the Merchants Division of the Chamber of Commerce.

One purpose of this Circus of Values is to demonstrate to everyone in the Lemon Grove shopping area the variety, quality and low prices available here. This shopping area includes all the communities around Lemon Grove as well as Lemon Grove itself.

Shoppers will find that there is plenty of free parking near any store which they wish to patronize.

Peggy Joe, who is a model, seems delighted that she has tickets for rides at the carnival and circus in Lemon Grove this week. Anybody can be just at fortunate, because tickets are available at most Lemon Grove stores just for the asking.

You, Too, Can Get Free Carnival Ride Tickets

If you like to ride on the Ferris Wheel — and who doesn't?—you'll be delighted to know that you can get tickets from most Lemon Grove merchants which will let you ride for only 10 cents when the circus and carnival come to town this week.

The carnival, with it's dozen mechanical rides, will be open from 10a.m. to 10 p.m. Thursday, Friday and Saturday, and from 2 p.m. to 10 p.m. Sunday. (The later opening time on Sunday is to allow everyone the opportunity to go to church in the morning without the distraction of the circus and the carnival.)

The four-day circus and carnival are being sponsored by the merchants of Lemon grove. More than 80 of these merchants have free tickets for their customers. The tickets will be given out by the merchants all during the run of the carnival.

With the tickets, you can ride on the Ferris Wheel (which somehow always seems to stop while you're right at the top, if you have your best girl with you); the Tilt-a-Whirl (girls seem to like this best, and boys go along to prove that no girl's braver than they are);

The Octopus (sort of a combination between the Ferris Wheel and the Tilt-a-Whirl); The Merry-go-Round (this one is so tame that even parents aren't afraid to ride on it, but they take the kiddies along and pretend to be supervising them, when all the time they're really enjoying the ride).

There's the Mix-Up and the Fly-A-Plane and (this is a new one) the Rock 'n Roll—a shake-'em-up-in-a-barrel type of ride.

While the grownups and almost-grownups are riding on all these things, are the kiddies just standing around?

Nope.

There are midget autos and midget boats for the kiddies. The autos run on a circular track and the boats splash along in a circular tank of water. The youngsters "race" and everybody wins — or loses, according to where you figure the head of the line is.

The youngsters also can ride in the swings, or they can ride on Bulgie, the fish.

Of course, as mentioned above, kiddies also can ride on the Merry-go-Round, supervising their parents if they like.

The rides will be set up in the same general area as the circus: on the lot between First National Bank and Food Basket Grocery at Imperial and Golden avenues in Lemon Grove.

And in between rides, Mom and Dad and the kiddies can indulge in games of skill along the midway, can eat cotton candy and candied apples and watch the clowns do tricks and cavort among the crowd.

It's lots of fun — and most Lemon Grove merchants have tickets just for the asking.

TRAINED PONIES MAKE VISITORS FEEL THEY'RE GLAD TO BE AT THE CIRCUS

Youngsters Thrill At Prancing Steeds

You're standing there at the penny pitch booth at the carnival and you've just won a prize.

You feel that thrill of accomplishment.

And suddenly over the loudspeaker you hear the circus ringmaster announce that the circus is about to begin.

You gather up the kiddies and head for the two open-air rings, clutching your prizes. The youngsters' eyes are alight with anticipation. They almost forget to bury their noses in the huge mounds of cotton candy which they hold.

As you scurry down the midway, you see the ponies. There they come, on the other side of the carnival booths. Sprightly, colorful with their tassels and harnesses. They are hooked together by a strap and they prance along at the heels of their trainer.

He is clad in a resplendent uniform, with glittering braid, and he carries a long, supple whip with a tassel at the end.

You rush to be at the circus ring before the ponies, because you want to see them as they trot into the arena, their heads high, their shiny hooves lifting proudly as the trainer runs into the center of the ring and pops his whip.

It's circus time and you're in Lemon Grove. And suddenly you're back quite a few years and you're a kid again. You stand there just as thrilled as the youngsters are, and you're glad that you let them talk you into going down to the lot between First National Bank and Food Basket market to watch the circus.

Ponies who can do tricks are a thrilling thing to watch at a circus. The scene above, minus the tents in the background, will be repeated this week at the many performances of the Ross Kabat Circus in Lemon Grove. Other acts will include a baby elephant, clowns, flying trapeze, and trampoline. The circus, to be held in two outdoor rings, is free.

SPEARS FORD

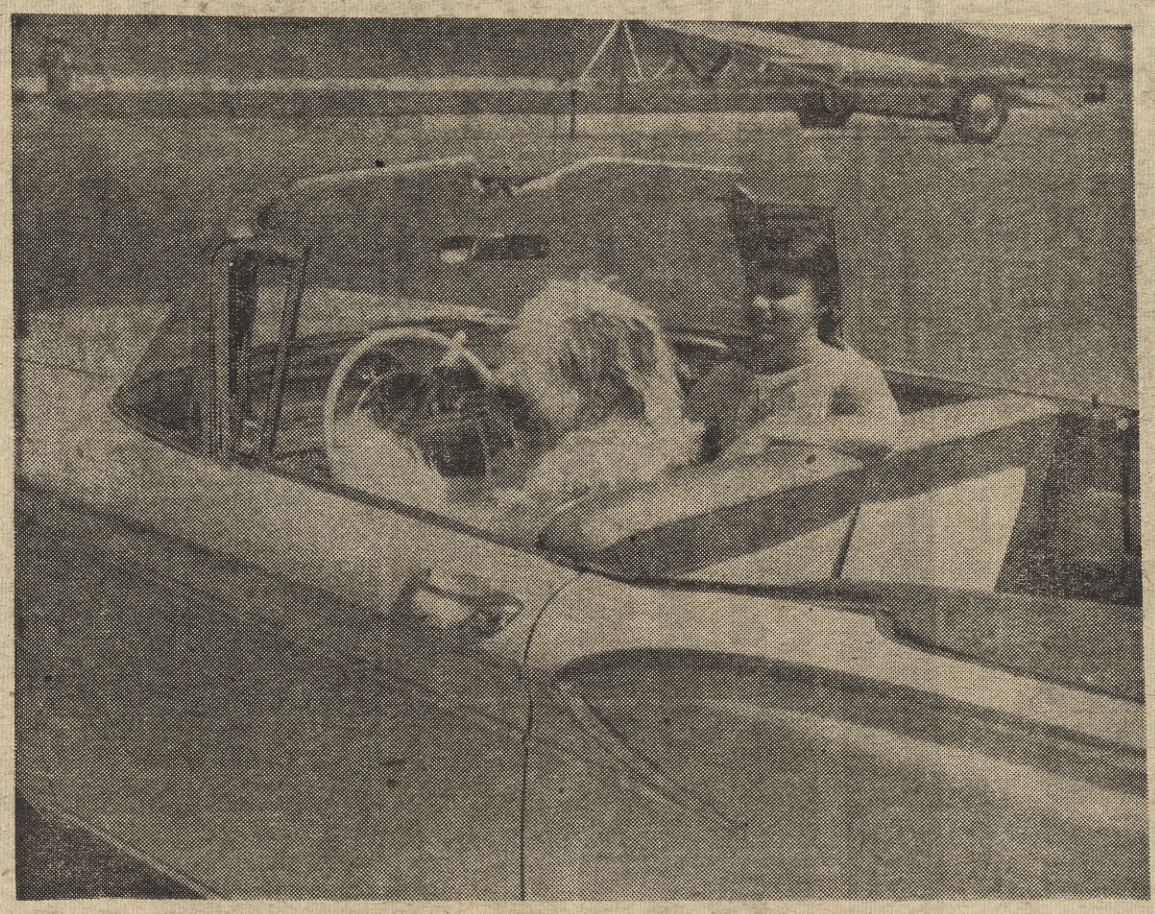
Want to See the Shaggy Dog?



Topsy Turvy of Delemere, who has been helping to promote the movie "The Shaggy Dog" and who also drives a Ford, will be in Lemon Grove this week at the circus as guest of Jim Spears, local Ford dealer. Topsy's sister is being trained as a standin for the shaggy dog of movie fame. Topsy is owned by Mr. and Mrs. John Herlihy of El Cajon. They said that she now weighs 65 pounds and expects to put on a couple dozen more pounds by the time that she is fully grown.

He Will Be in Town For Circus of Values

You've seen the Shaggy Dog in the movies or on television.

Now you can see him in person.

Topsy Turvy of Delemere, as shaggy a dog as ever performed a comedy scene or did a commercial for the Ford Motor Co., will be at the circus in Lemon Grove this week and also will appear in various locations throughout the business district.

The dog's schedule for this week includes a tour of all outlying communities on Wednesday. Topsy will appear in his Ford along the streets of Spring Valley, La Mesa, San Diego, Lemon Grove, Encanto and other areas.

At each stop, youngsters and their parents will be able to meet him. Nobody is guaranteeing that Topsy will put in a vocal plug for the circus in Lemon Grove, but there's a good chance that the idea will get across, along with the idea that there are hundreds of wonderful bargains available in Lemon Grove stores.

On Thursday and Friday, courtesy of Jim Spears' Ford agency in Lemon Grove, Topsy will show up for three hours at the circus and around the business district.

Topsy Turvy of Delemere is owned by Mr. and Mrs. John Herlihy of El Cajon. Topsy's sister has just been signed by Disney Productions to act as a standin for the original shaggy dog of movie fame.

A Circus Without Clowns? Unthinkable!

Circus This Week Will Have Them

When the circus opens in Lemon Grove this week, clowns will be one of the main attractions. The clowns also be around the carnival grounds and on the midway between circus performances.

Somehow, when you think about circuses, you see elephants and ponies and trapeze artists. You smell sawdust and hear exciting sounds. You hear the crack of the ringmaster's whip and the applause of the crowd.

You hear the gasps as the flying trapezist almost misses his partner as he leaps through the air.

And always present are the clowns, popping up between circus acts to perform zany stunts in the ring. Pulling gags on members of the audience. Shooting each other with guns which emit great puffs of smoke.

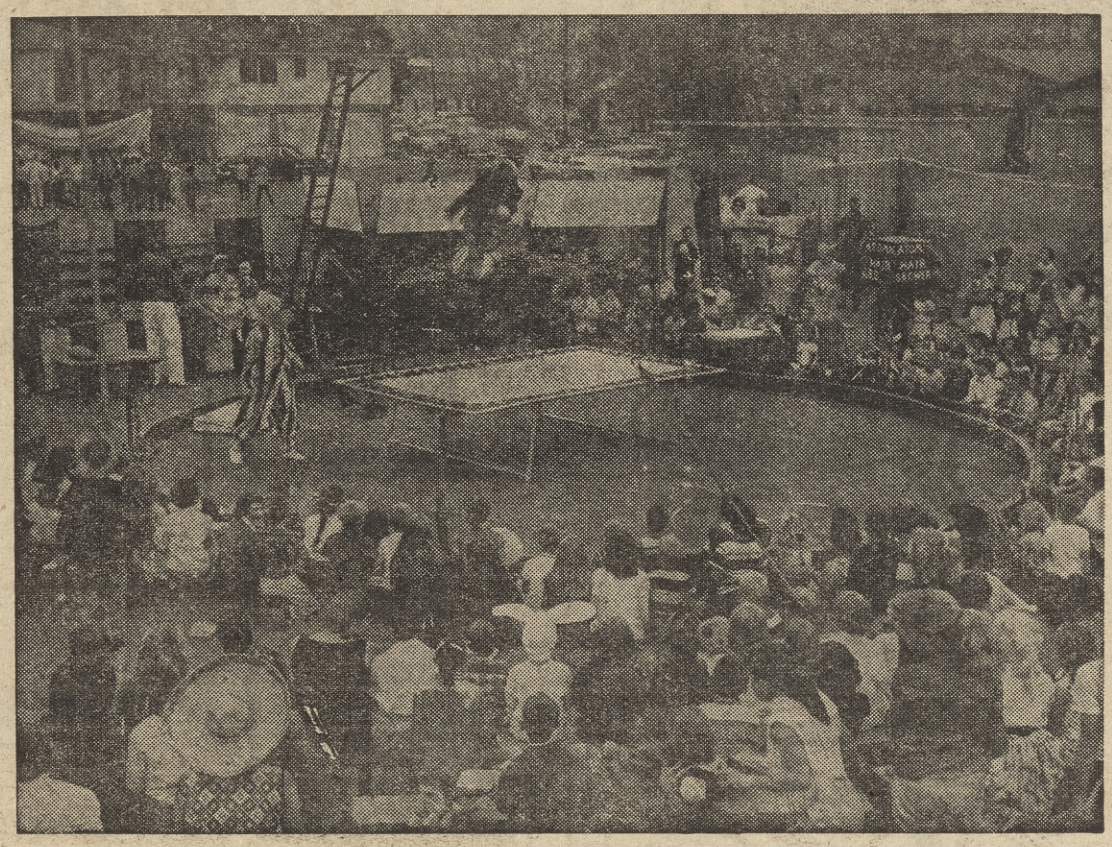
And at the circus this week in Lemon Grove the clowns also will put on a trampoline act. The trampoline, you know, is a horizontal framework with a heavy canvas stretched across it. The canvas acts as a springboard.

The clowns are expert gymnasts. They are trained trampoline artists.

When you combine athletic skill with the clever, sad, zany antics, the clowns are an exciting part of the circus. They will perform at the three-times-a-day circus this week. The circus and carnival are scheduled to open at 10 a.m. Thursday, Friday and Saturday and at 2 p.m. on Sunday.

In addition to the regular circus performances, the clowns will be around the carnival midway most hours of the day. They will talk to the kiddies and put on their stunts.

The circus will be at Imperial and Golden Avenues in Lemon Grove.



Clowns are an important part of any circus. Here, they perform on the trampoline—a highly sophisticated act somewhat like bouncing on a bed. They leap high into the air and perform all sorts of crazy stunts. Also, the clowns will be putting on all kinds of acts between the other spots in the circus, and they will be out on the carnival midway when the circus isn't going on.

MARGIE, THE ELEPHANT, WILL PERFORM

Circus to Feature Tiniest Pachyderm

Who hasn't thrilled to the clop, clop of the elephants in a parade, or applauded as a lumbering pachyderm stood on one leg atop a barrel in a circus?

Who hasn't marveled that these giant beasts could do the tricks that they do?

And who hasn't oooohed and aaaaahed at a baby?

Well, visitors to the circus in Lemon Grove can do all these things at the same time.

Margie, one of the featured performers in the Ross Kabat Circus, will be here. Margie is an elephant, a baby elephant. And she can do tricks.

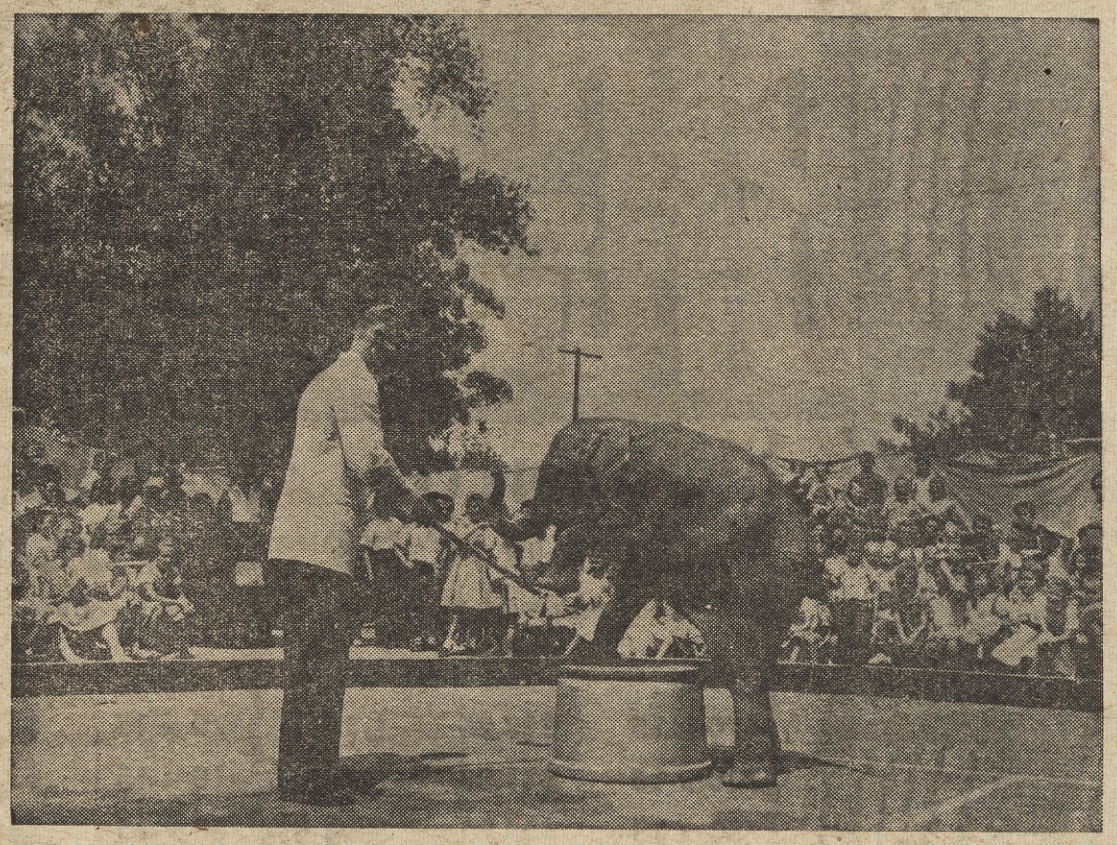
This baby elephant, only two years old and weighing a mere 500 pounds (that's mighty small for an elephant, you know), can do a dozen tricks.

She's the smallest and youngest performing elephant in the United States.

The circus will be in Lemon Grove from Thursday, July 16, through Sunday, July 19. There will be three performances a day—with the gates open from 10 a.m. to 10 p.m., except on Sunday when the circus will open at 2 p.m.

It will be a new experience for the tinier youngsters, and it will be a re-creation of an old experience for the not quite so young youngsters.

Tickets for carnival rides can be obtained from most Lemon Grove merchants. There will be rides for grownups and special rides for the kiddies.



Animal trainer puts Margie through her paces as kiddies watch along the edge of the circus ring. Margie, smallest and youngest performing elephant in the United States, will be in Lemon Grove this week with the Ross Kabat Circus. The circus will be outdoors in two rings, so everybody can gather around and watch the performances. Circus acts are scheduled three times a day from Thursday through Sunday. Other acts in the circus include a pony drill, a dog act, chimpanzees, clowns and a flying trapeze team.
